# Meaning of the Information Boxes

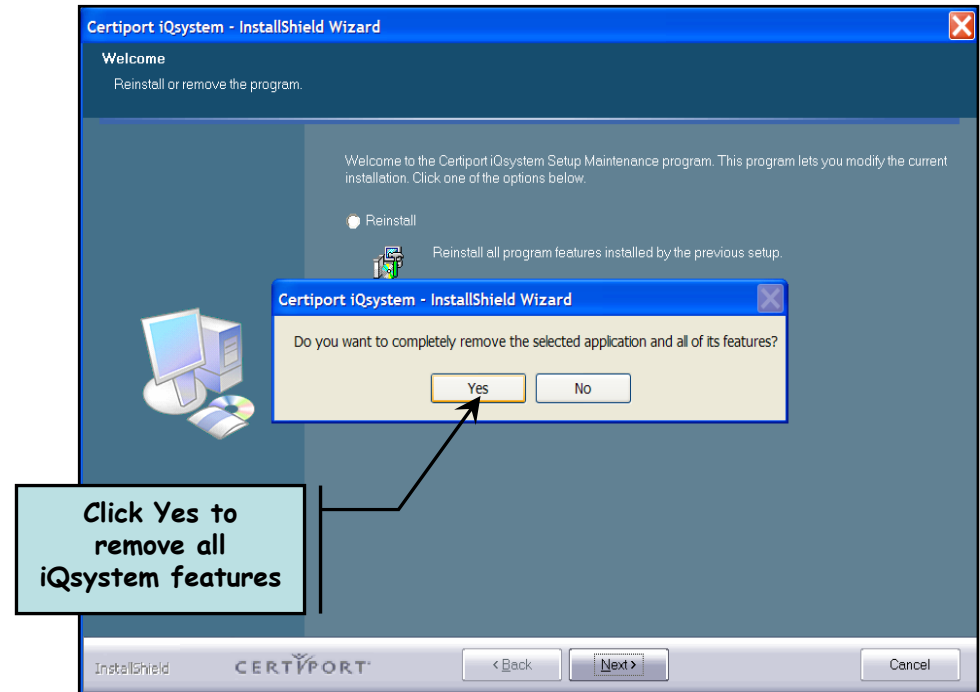

- To remove iQsystem 6.0 you need to insert the iQsystem CD used to install the software.
- Place the CD into the CD drive on your computer, it will auto run and bring you to this Remove Option screen. If the CD doesn't auto run, double click on the My Computer icon and then double click on your CD drive, it will again bring you to the Remove Option Screen.
- In this screen select the Remove option and click next.

# Removal Confirmation

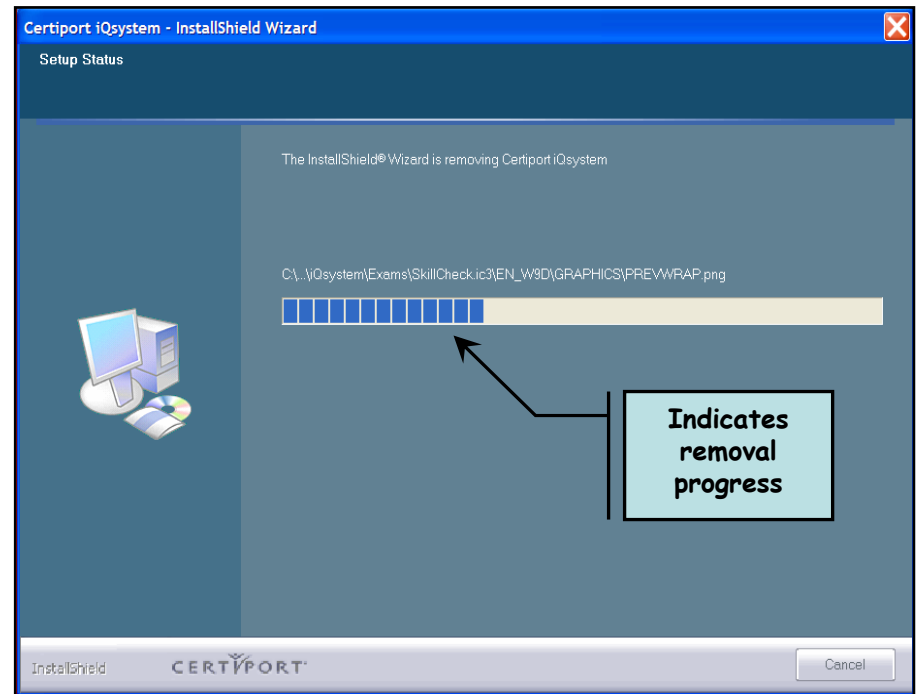

- When uninstalling iQsystem you need to completely remove all of features.
- Click Yes to continue uninstalling and remove all of the iQsystem features.

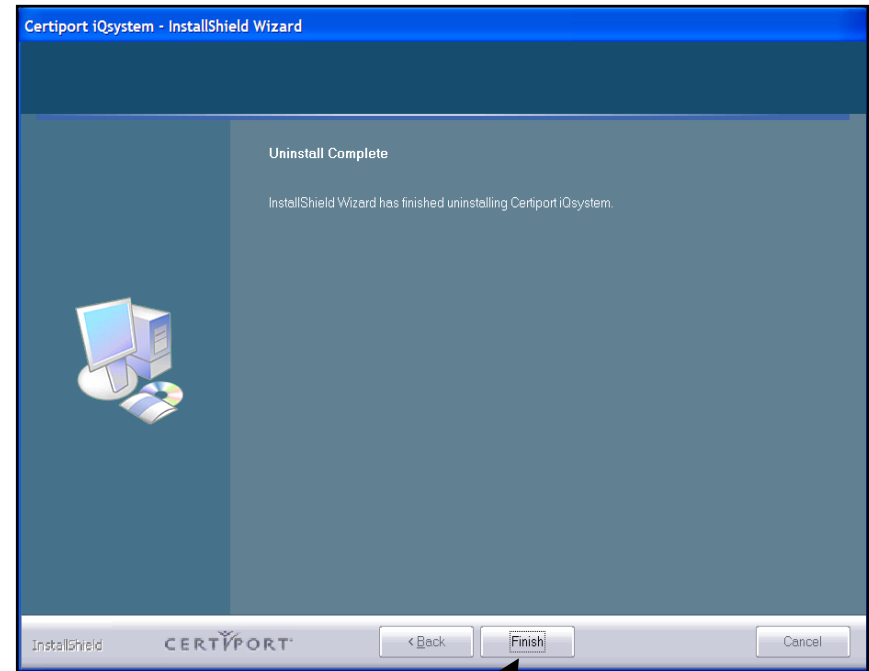

- While uninstalling, a status bar shows the unistall progress.
- This will take anywhere from 5-10 minutes.

# Removal Completion

- When the uninstall process is complete, it will be indicated on the screen.
- To complete the uninstall process, click on Finish.
- All files and icons will now be removed.

Click Finish to  
end the removal  
process
